

**To: All Entry Coordinators for:
A/B/C Finals**

Swimmers who have achieved a Champ time in either yards or meters **cannot** swim that event at A/B/C Finals.

Legislation approved by MSI dictates that swimmers with Champ times must enter with the time they have, (meters or yards), for State meet and cannot use A/B/C Finals as an opportunity to improve their qualifying time.

(Motion passed 1/16/2007)

Also, entry times for A/B/C Finals must be in the course that the time was achieved in. No converted times should be used. So, if the A standard was achieved in a short course pool, and this a long course meet, the short course time should be used without conversion. The meets will be seeded conforming times first and then non-conforming times.
