

State Records Chair – House of Delegates Report **October 2004**

I was appointed to this position in the spring of 2004. Over several months I collected record information and files from various sources.

Before the Short Course State Championships, I researched errors that had been reported to Matt Brown, the Webmaster, and corrected the Short Course Records prior to the State Meets. Short Course Records were then updated after the State Meets in March 2004.

State Record Certificates for 2004 Short Course Records were prepared and have been distributed to team coaches for their athletes.

In the early summer, the same update procedure was done with Long Course Records. Long Course Records were updated before the State Meet, including the Speedo Champion Series (Sections) and Olympic Trials. By this House of Delegates meeting, Long Course Records will have been fully updated and State Record Certificates for 2004 delivered to each team for distribution.

I want to thank Matt Brown and Kathy Seebeck for their assistance updating all State Records.

In the near future, we hope to be able to handle the records database electronically, keeping bookkeeping errors to a minimum.

If you see any errors, I will be glad to research them. Check the posted State Records on the Minnesota Swimming website. Please contact me if you have questions or possible corrections. Errors will be corrected.

Note: If anyone with a verifiable State Record in previous years (2002-2003) did not receive a certificate and would like one, please contact me.

Respectfully Submitted,

Ellen Youngers
